

# Professional Development

Thank you for exploring or choosing BJU Press materials for your classroom. Below are recommendations for professional development by BJU Press. The videos are free to watch but will require an email address and password to view. CEU certificates are available after completing both steps (video and quiz).

\*Asterisked items are foundational and focus more on the specific materials included for implementation. Others are more in-depth or extend training to philosophy or best practices beyond the textbook. Videos are arranged in order from foundational to more in-depth or general. If you have time for only one or two videos, choose the first one or two listed.
